Musical Festival Committee Elect Officers for the Year; Snug Balance in the Bank

There was a fine representative meeting of all those interested in the Musical Festival held in the Town Hall on Thursday evening, July 6. President A. S. Galtway was in the chair and Secretary H. L. Vaughan was at his post.

The principal business before the meeting was the election of officers, which resulted as follows:

President—A. S. Galtway.
Vice-President—H. P. Fitzpatrick.
Secretary—H. L. Vaughan.
Executive—Rev. E. Jackson, chairman of the syllabus committee; Capt. Ralston, chairman of Education and Dramatics; Mrs. L. C. Porteous, chairman of the musical committee; Capt. Ralston, chairman of Finance and Accounts; J. B. Yule, chairman of publicity.

A very important step was taken when it was decided to include in the organization, corresponding members from the various towns and districts. This was done for the purpose of making the Musical Festival include the entire Grande Prairie district and the B. C. Peace River Block, and it was the unanimous opinion that the district included should be reported.

The secretary read the financial report, which showed a snug balance in the bank.

A general meeting will be held on Wednesday, September 27, to work out plans and details for the holding of next year's Musical Festival.

President Galtway said that while some mistakes had occurred, and that some of the past year's work had been better than others, he thought it was well to get started early on organization work.

ESKIMOS TREAT VISITORS TO DENATURED ALCOHOL

May Endanger Health of Natives If Practice Continues

"Civilization" is ravaging the Eskimos of Victoria Island, in Arctic Canada. They have taken to denaturing denatured alcohol, according to the report of Corporal Wall, of the North West Mounted Police.

In paying inter-tribal calls, this poison and methylhydrate are the spirits passed around. The corporal fears if the practice continues it will seriously endanger the health of the natives.

Some redeeming features are noted, however. The influence of Christian missionaries is strengthening, and the Eskimos pride themselves not only on their hymn-books, but in their ability to sing these hymns.

"They observe Sunday very closely, spending most of the day singing hymns, even if the camp is out of meat," said Wall.

SCIENTISTS ARE PREPARING TO EXPLORE INDIAN OCEAN FOR LOST CONTINENT

British scientists are to explore the bottom of the Indian Ocean, four miles below the surface, in a search for traces of the lost continent of "Lemuria."

An expedition under Captain J. M. MacKenzie, who captained the "Discovery" of Sir Douglas Mavor's last voyage in the Antarctic, will leave London in August to begin the search. They will be nine months at sea between Africa and India in a tiny research craft of only 30 tons. The craft is now being fitted at Alexandria with latest inventions for under-sea exploration.

Steel bottles, which close automatically at a certain depth, will be let down to take specimens of the sea life and record temperatures. Lead lines will be dropped four miles down to take samples of the ocean floor.

In this way the expedition hopes to discover traces of the continent of "Lemuria," which is supposed to have stretched from Madagascar to Sumatra and India in pre-historic times. Another object is to discover whether there are mountain ranges and ridges under the sea such as the Meteor expedition found in the Atlantic. The scientific leader of the expedition will be Colonel Seymour Searle, D.S.C., director of the geological survey of India.

TO SALVAGE GOLD

Italian Vessel Engaged In Raising Treasure From Sunken Liner

The Italian salvage ship "Antiglio" has sailed for a final attempt to raise approximately \$1,000,000 in gold still in the strong room of the sunken P. and O. liner "Egypt," lying 70 fathoms deep off Point de Raz.

In four previous summers of work the Italian divers recovered \$2,000,000 of the total cargo of \$5,000,000 in gold and silver which the liner carried from London on her last voyage, May 14, 1922. The "Egypt" sank in twenty minutes after being rammed in a fog by the French freighter "Seine."

After finishing with the "Egypt," the "Antiglio" probably will be engaged by the Egyptian government to seek gold and other treasure from Napoleon's ships which were sunk by Lord Nelson off Aboukir Bay in 1798.

NO ICE IN ICELAND

An uncertain winter has been enjoyed by Iceland. Rain fell in January and spoiled the ice skating. Now prominent citizens of Reykjavik urge that funds be raised for the construction of an indoor rink. It may seem incredible in a city so far north, but the only way Icelandic skaters can enjoy the sport throughout the winter is by the use of artificial ice.

What One Girl Wore:
By Betty Brownlee
You don't have to have an elastic bodice this summer to have a vacation wardrobe that will mark you as a lady of taste and discrimination.

Summer clothes are inexpensive and smart at the same time—that is, if you choose wisely. Simple cotton frocks and suits that can be slipped into the washbasin as often as necessary and will endure crisp and fresh can be had for a trifle.

With one natural linen suit one may make a number of smart costume combinations with just a change of blouse. (With the white or natural linen suit, a blouse of darker color is considered quite a thing. For instance, a brown dotted to silk blouse with natural linen is very effective, and just as chic as the heavy blue blouse with the white suit.)

For afternoon wear one may choose either a simple elegant frock (they're even sporty now on the street this season) or a cool frock of unadorned batiste.

Plain sport frocks are very good for active and spectator sportswear and worn with the new pulse accessories—even including shoes—they are delectable.

Next year to be very dressed up in a silk frock, choose something in the order of the frock sketched today. Fashioned of a dull-finish crepe in a delicious chunky yellow shade it is effective accented with brown lace.

At the 19th Hole

Over twenty cars were lined up at the 19th hole at the Grande Prairie Golf and Country Club on Sunday last. It was an ideal summer day, with enough wind to keep one nice and cool and the mosquitoes away. Several times during the day the course was congested with players, which caused quite a lot of waiting at each three.

There was keen interest at the club house as to who would win the match between McKay and McMillan. The latter, who had won the match on the 18th hole, was the favorite. The match was played on the 19th hole, and McKay, who had won the match on the 18th hole, was the favorite. Jim Evans, who was out in the first bracket of the Handicap Tournament, is getting in line of practice before meeting the winner of the Handicap Tournament (Friday) evening. Ken Interest is playing down in this game and it is expected to go the full distance. Neither player will have an aces after the game, as both are hitting their regular pace.

Joe Crum, Chester Miller and "Mel" Crum, now touring the district in the interest of the Shovel and Wheel Chemical Company, were knocking the shovels all around Chester's coming right and about hitting his drives around the 200 mark. "Joe" is still hugging the rough, but says that is where he gets the most exercise. "Mel" found quite a difference in the sand greens outside, always inclined to be a little more green.

P. J. Toney and H. L. Vaughan were out for a couple of rounds to keep in shape. Hillman and Ruse played a match against Hillman Pratt and G. Duncan, the latter pair winning by few points. Hillman was driving well, but his short game was not so good. His partner was not hitting his regular golf and at times lost self control. Delmer was good in some spots, but discovered that a puffer can't hit tee shots and get very close to the green. Duncan's game could have been better.

Mr. and Mrs. Geo. Nelson of Wembley played a round of golf over the Richmond Hill course last Sunday. Gordon says he is keeping in shape for the next handball tournament.

The Misses Emily and "Tots" Walton played a game Sunday afternoon. Both players are hitting a good ball and should go a long way in the coming ladies' tournament.

The Wembley foursome—Hogers, Nelson and L. and R. Krane—were hitting the ball last Sunday. Rogers is making wonderful progress since he got hold of his golf.

Rev. E. A. Wright and Clarence Fleming, while playing a game of golf, had the good fortune to find three balls and only one hole. It was not very good for the hardware business, but it is real "Scotchman's" luck.

Gordon Gray is trying out one of the newest clubs on the market, an Arlian 1920.

driver. Gordon says it does all that it is claimed to do—if you connect. "It gives you," he said, "about fifty yards longer distance in your drive. Gordon connected on two drives of 240 and 250. The club is left at the course for anyone to try out. Already two have been ordered. Players on tour who have seen men on will have to keep a sharp lookout, as they will be in line for a knockout by these drives from number six tee.

G.P. Men's Open Golf Championship Tourney Starts Friday, July 28

The Men's Open Championship Tournament of the Richmond Hill Golf and Country Club will commence on Friday, July 28, on the club course. The players are urged to make their entries with the club's secretary, C. C. Fleming, as early as possible and not later than July 27. Grande Prairie members of the club can play their qualifying round before that date.

The prize is the club's distinguished championship cup, donated by Bell-Fleming Hardware, Ltd.

Dr. D. I. Fletcher, formerly of Grande Prairie, but who for the past six years has been practicing his profession of dentistry at Long Beach, California, has opened an office in Grande Prairie, having arrived at his old standing on Wednesday last week.

Dr. Fletcher was accompanied by his wife and three sons. Harry is a graduate in dentistry, and will assist his father. Delmar and Irvin will enter the University of Alberta this fall to study dentistry.

Dr. Fletcher is in reply to a question as to conditions in California, said that the area affected by the earthquake was faring built up. This gave employment to many men, but unemployment was still bad in other sections.

The Boulder Dam which is under construction, and to which is giving employment to a host of men, would, when completed, result in a large area being put under cultivation.

Dr. Fletcher said that he always had and still has implicit faith in the future of the Pacific River.

His office are in the Fletcher Block which he erected in the year 1920.

WILLIAM ALEXANDER

NOVIE, Alaska, July 11.—William Alexander, leader of the Jimmie Matten relief expedition, waited impatiently here Tuesday for permission to enter Siberia with a seaplane to rescue the marooned round-the-world fliers. Tells of His Impressions of Czechoslovakia

Frank Polasek, who has been employed by C. Strelitzsky, merchandise dealer of Grande Prairie, for the past five years, arrived here after a visit to his native city of Zlin, Czechoslovakia.

The conversation started by the Tribune reporter, Frank, who left here November last, in answer to a question regarding conditions in his native country, replied that business in Zlin, a city of 20,000, was very good, but conditions throughout the country were not so good. He explained that Zlin was an important shoe manufacturing city and shoes were in strong demand. The result was that most of the people were employed.

Reporter: "Did you hear any talk of war in your country?"
Frank: "No. The people have had all the war they ever want to see. They are perfectly satisfied with their republican form of government. All they want is to be left alone."

The conversation drifted to a comparison of the way the people of Canada and the people of Czechoslovakia. Frank stated that living is much the same in both countries so far as cost of living is concerned. He said that all places of amusement were running full blast at Zlin. He also said that the people of Czechoslovakia were very happy and contented.

Comparison of the cost of living was discussed. In normal times living in Czechoslovakia was not so good as in Canada, but it costs more to live at Zlin than in this country.

Frank passed through Germany both ways, via Bremen. As he had a thorough ticket, he had no opportunity of visiting conditions in that country. Frank is again on his old job.

Jack Lawrence Opens Garage In Town

Jack Lawrence, well known automobile mechanic, who has been working in garages in Grande Prairie for the past five years, has opened a garage just north of Bert de Jong's service station and is now prepared to do any class of work in car or tractor repairing.

Mr. Lawrence has had many years of experience in the business and is well equipped to handle any job that requires systematic welding.

In discussing his venture with The Tribune, Mr. Lawrence said: "I feel that my many years of experience, both here and abroad, will enable me to qualify me to own and manage a garage of my own. I belong to Grande Prairie and intend to stay here."

Mrs. R. C. Robson To Be Buried on Thursday, July 13

The funeral of Mrs. R. C. Robson, who died suddenly Sunday evening, will be held from the home in the Albright district on Thursday afternoon, at 2 o'clock.

Deceased, who was in her sixty-second year, was the respect of all who knew her. Cheerful and hospitable to a fault, her name is regretted by all those who came within the sunshine of her smile and enjoyed her hospitality.

The following are left to mourn her loss: Husband, two sons and two daughters—Bert, on the staff of the Bank of Montreal at Calgary; Leslie, with the Royal Bank at Lacombe; Mrs. Charles Heeling, living at Ponoka; and Kathleen, living at home.

The Robsons came into this country in 1918 and homesteaded the farm on which they live. They lived for three years in Grande Prairie and later returned to their farm.

FIRE RANGER MEETS WITH PAINFUL ACCIDENT

Arthur Sherman, fire ranger and wildlife trapper met with a painful accident on Friday evening, July 7, when he cut a deep gash in his right foot while cutting wood.

Sherman was on his way out to his home when the accident occurred. He had arrived at the mouth of the Red Willow when it began to rain, so he decided to camp for the night. He put up his tent and was in the act of cutting wood to make a fire when the accident occurred.

Binding up the wound as best he could, he added one of his horses and rode to Halcourt. From there he was taken to Grande Prairie by Tom Williams and was attended to by Dr. O'Brien.

Sherman will be laid up for some little time. "I have been using an axe for years, and this is the first time I ever cut myself. I don't know yet how it happened," he remarked to The Tribune reporter.

ANGUS McDONALD

ANGUS McDONALD, aged 71. The funeral service was held in the Presbyterian Church, Rev. R. C. Wright officiating. Burial took place in the Grande Prairie cemetery.

"Taking for his text, 'He being dead, yet speaketh,'" Mr. Wright said that people live in the influence they leave behind.

After referring to the past pioneers of Canada had played and are still playing. Wright said that the deceased, who was one of the pioneers of this country, had led for its development.

"It was a great thing," said the speaker, "that those who had labored with him were gathered around to pay their last respects. It was Christ-like."

There were many floral tributes. The following were the pallbearers: Alf Field, Charles Leslie, H. Woods, Joe Moore, "Bill" McLevin, and Martin Anderson.

ANGUS McDONALD was born in West Zorra, Oxford County, Ontario. He moved to Kinross, Bruce County, Ontario, where he lived for a number of years. Like many a young man of his day, he answered the call of the West. He came to the Grande Prairie district over twenty years ago and took up a homestead near Dunstable, where he held some years ago.

At the time of his death, which took place on Sunday evening, pasting year in his sleep, he was living at the home of Art Hayes.

Few men were better known in the Grande Prairie district than Angus McDonald and few men had more friends.
